Experience

2023 - Present

Parkhya Solutiions Pvt. Indore

Frontend Developer | Shopify Developer

- Developed and maintained 200+ Shopify stores for different client requirements.
- Developed responsive and user-friendly Shopify e-commerce websites using HTML, CSS, JavaScript and Shopify Liquid
- Customized Shopify themes and developed new sections, templates and features based on client requirements
- Worked with Shopify Liquid, theme customization, metafields, product collections and dynamic content.
- Integrated third-party Shopify apps and APIs to extend store functionality.
- Fixed UI issues, bugs and cross-browser compatibility problems.
- Collaborated with designers and team members to convert Figma/UI designs into responsive Shopify websites.
- Maintained and optimized existing Shopify stores for better performance and functionality.

2022 (May-July, 3 months)

SRN Infotech Pvt. Indore

Frontend Developer | React Js

- Developed responsive web applications using React.js, JavaScript, HTML5, CSS3 and Tailwind CSS.
- Built reusable and scalable React components using component-based architecture.
- Implemented state management using Context API / Redux / Redux Toolkit.
- Integrated REST APIs using Axios and handled dynamic data rendering.
- Used React Hooks such as useState, useEffect, useContext and useMemo for application development.
- Implemented client-side routing using React Router.
- Created responsive and interactive user interfaces based on Figma/UI designs.
- Improved application performance through reusable components, optimized rendering and efficient state management.
- Used libraries such as Framer Motion, React Slick and AOS to create interactive UI experiences.
- Used Git/GitHub for version control and collaborated with the development team.

2021 (6th months)

Indvibe Infotech Pvt. Indore

React.js Intern

- Completed a React JS internship and worked on developing responsive web applications.
- Built reusable UI components using React JS, HTML, CSS, and JavaScript.
- Worked on state management, props, hooks, and component-based architecture.
- Integrated APIs and improved website performance and user experience.
- Collaborated with the development team to fix bugs and implement new features.
- Gained hands-on experience with Git, responsive design, and modern frontend development practices.
